

Understanding the ISI Mark · A Consumer Guide (Sample)

WHAT IS THE ISI MARK

The ISI mark is a certification mark issued by the Bureau of Indian Standards for products that conform to the relevant Indian Standard. The mark certifies that the product has been tested and found to conform to the requirements of the applicable Indian Standard.

HOW TO CHECK A PRODUCT IS BIS CERTIFIED

1. Look for the ISI mark on the product or its packaging. 2. Find the licence number (format CM/L-xxxxxxxxxx) printed below the mark. 3. Verify the licence number on the BIS website under 'Product Certification · Verify Licence'. 4. Check that the product category matches the licence scope. If a product bears the ISI mark without a valid licence number, consumers may lodge a complaint with BIS through the BIS Care mobile application or the BIS consumer complaints portal.

CONSUMER COMPLAINTS

Consumers can file complaints about misuse of the ISI mark or substandard certified products through the BIS Care app, the BIS website complaint form, or by contacting the nearest BIS branch office. BIS may take action under the BIS Act 2016 including penalties for misuse of the Standard Mark.

MANDATORY CERTIFICATION SCHEMES

Under the BIS Act 2016, certain products require mandatory BIS certification before sale in India. Examples include cement, steel, electrical appliances, LPG cylinders, food colours and automotive helmets. The list of goods subject to mandatory certification is issued by the Central Government through Quality Control Orders.
