

ISI Mark Buying Guide for Everyday Household Products (Sample)

PRESSURE COOKERS

Pressure cookers are covered by IS 2347 and BIS certification for domestic pressure cookers has been mandatory for decades. A domestic pressure cooker sold in India must carry the ISI mark with the licence number. Before buying, check the ISI mark is stamped on the cooker body or lid, check the gasket and safety plug, and verify the licence number on the BIS website. Verify the latest requirement on the official BIS source.

GENERAL CHECKLIST FOR ANY EVERYDAY PRODUCT

1. Look for the ISI mark on the product itself, not only the box. 2. Note the CM/L licence number below the mark and verify it on the BIS website or BIS Care app. 3. Confirm the product category matches the licence scope. 4. Check manufacturing date, batch and any expiry or test-due marking. 5. Prefer sellers who provide a proper bill that names the product. If a product category is not covered in this knowledge base, ask the seller for the standard claimed and verify it on the official BIS source.
